Coffee Shop Owner’s Daily Struggle

CR602

Enterprise-Grade 5G Connectivity, Deployed in Hours

Handles All Your Devices Smoothly, Simultaneously

From POS to guest Wi-Fi—every device stays connected.

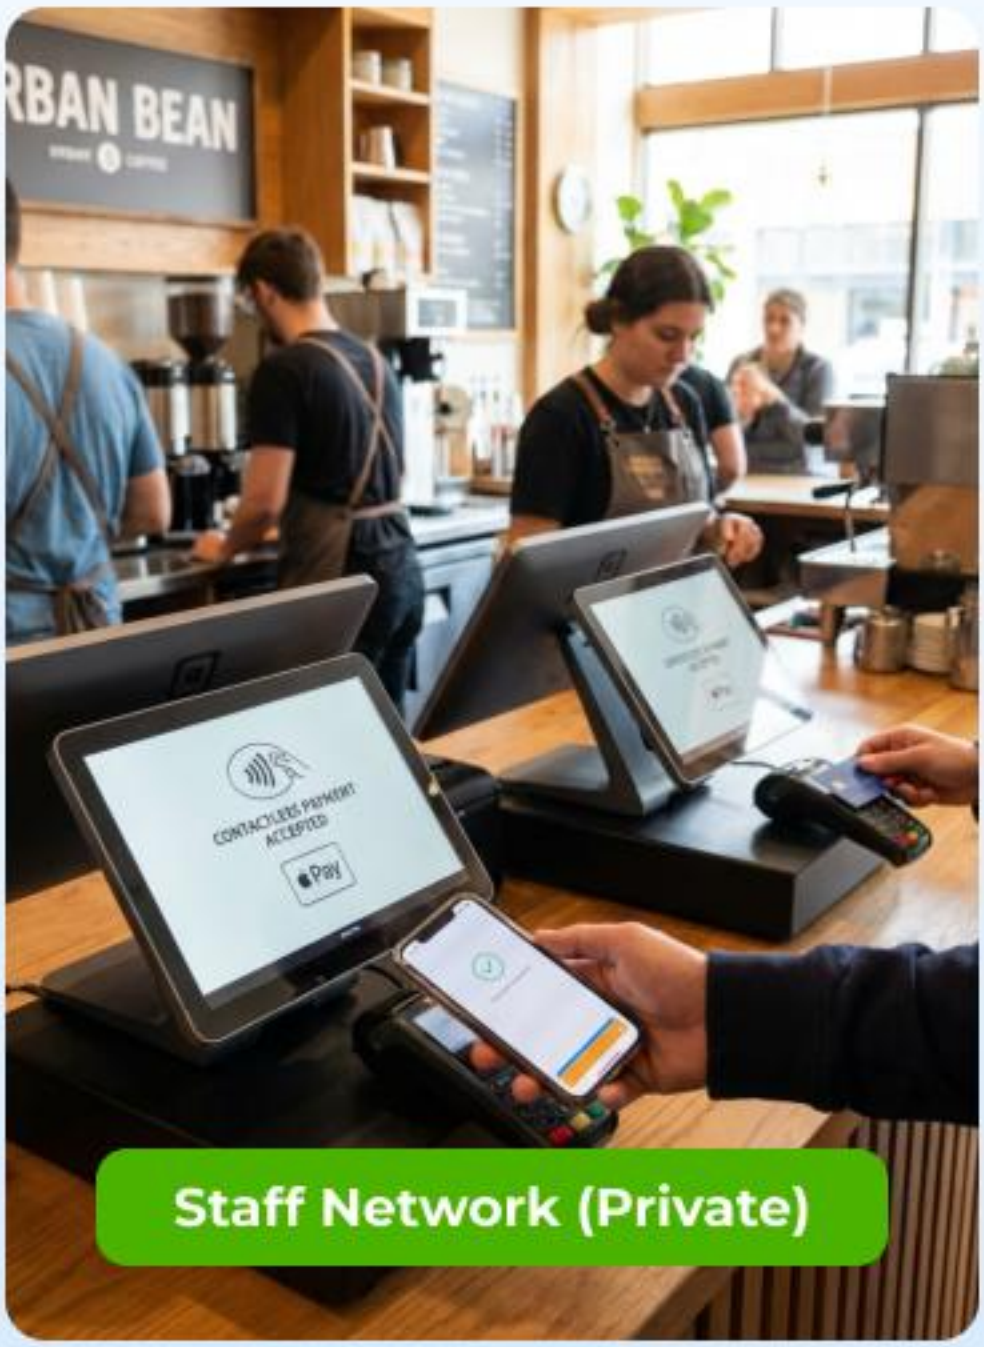

Secure Your Business, Open Wi-Fi for Guests

Keep payment systems secure.
Keep guest Wi-Fi open.

Staff Network (Private)

Guest Wi-Fi (Public)

Built-in VLAN and multi-SSID isolation ensures PCI-compliant separation between business and guest traffic.

Power Outage? Stay Online.

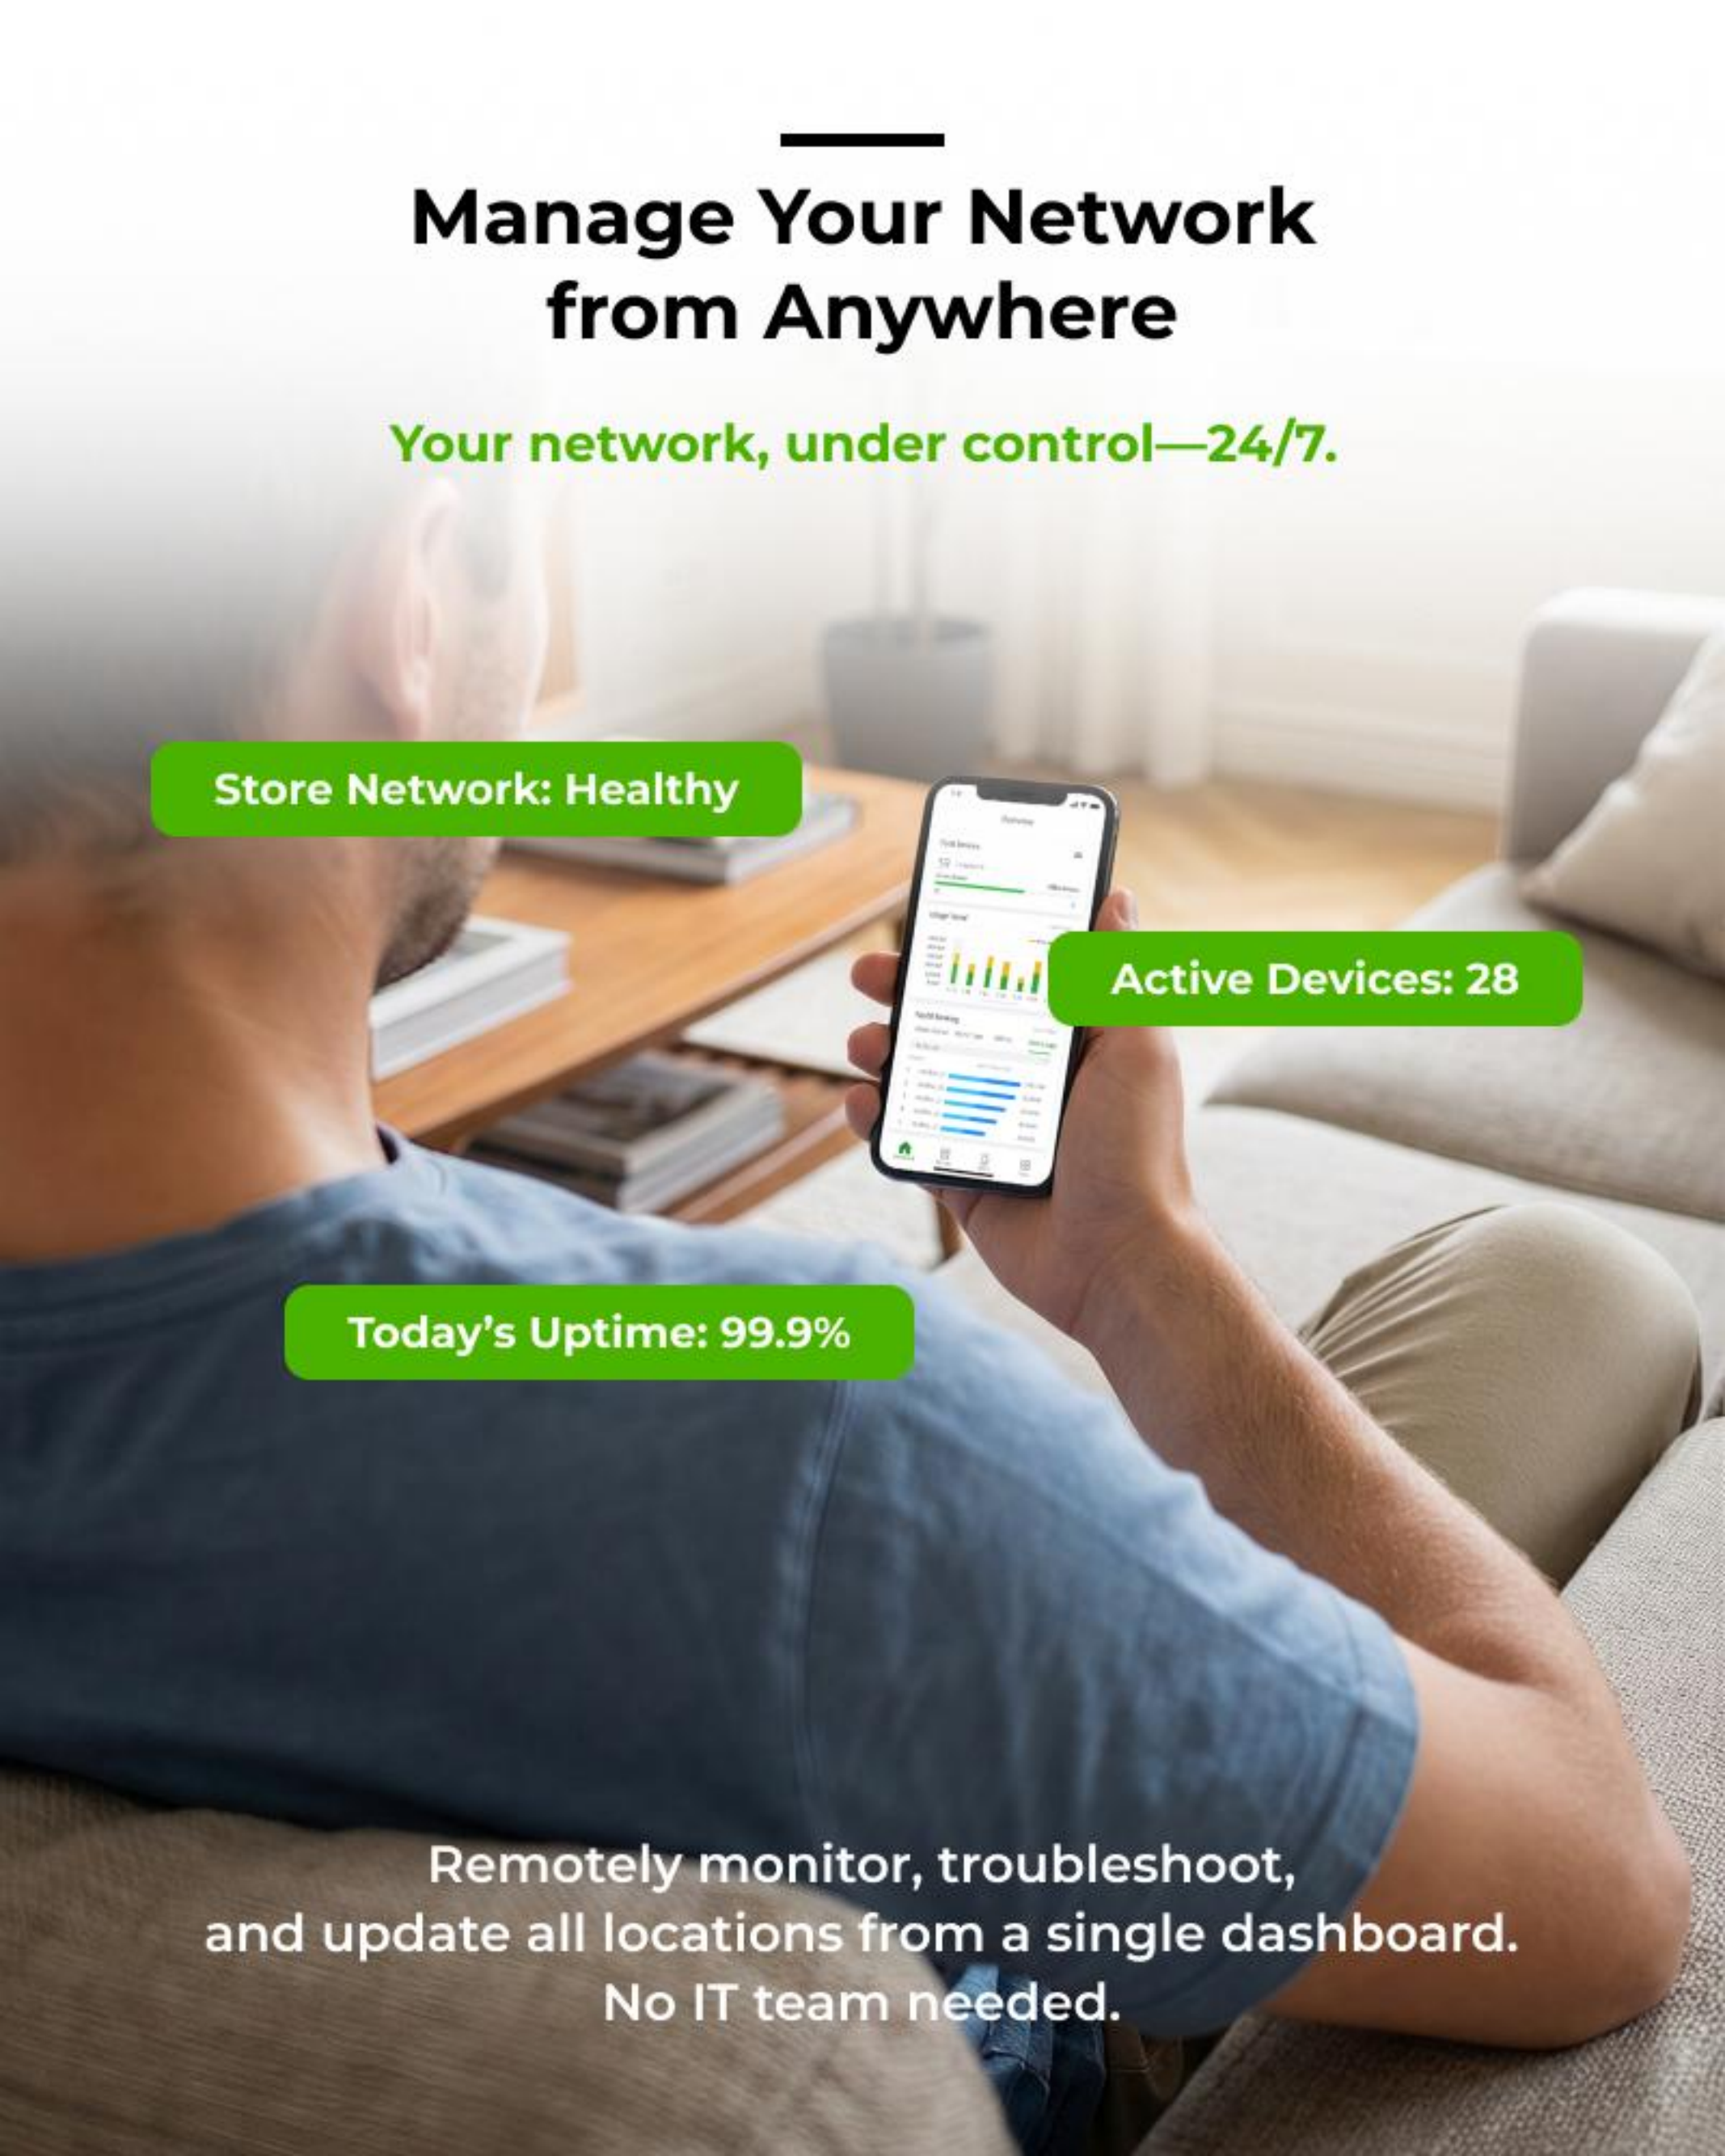

Built-in battery backup keeps you selling —even during outages.

Up to 15 hours of continuous operation ensures business continuity when the grid goes down.

Manage Your Network from Anywhere

Your network, under control—24/7.

Remotely monitor, troubleshoot,
and update all locations from a single dashboard.
No IT team needed.

Reliable. Secure. Built for Business.

CR602: The 5G backbone for modern coffee shops.
