NETWORK OPERATIONS

LESS SEARCHING. MORE SOLVING.

InCloud Agent brings AI into real-world network operations.

MORE SITES.
MORE FRAGMENTED OPERATIONS.

MORE SITES
More issues to track.

SCATTERED DATA
Too many screens.

TOO MANY STEPS
Too much switching.

Different Networks. One AI-Ready Approach.

Scenario	Approach	Core Value
Cloud-managed devices	InCloud Manager	Ready to use
Your own AI Agent	InCloud Skill	Connect InCloud operations to your existing AI workflow
Off-cloud / private-network devices	Direct Device Skill	Direct access to field devices

GO BEYOND FINDING PROBLEMS. MOVE WORK FORWARD.

1 DESCRIBE THE TASK

State the issue directly

2 GATHER INFORMATION

Pull relevant data automatically

3 CONFIRM & EXECUTE

Proceed within permissions and approval workflows

4 VERIFY THE RESULT

Confirm the issue is resolved
